

Trung Minh- LY

Data Scientist (AI)

Ho Chi Minh City, VN | +84856989693 | trung3566@gmail.com

Ly Minh Trung Ly Minh Trung

EDUCATION

Ho Chi Minh University of Technology - Vietnam National University 2025 - 2027 (Expected)
Master's Degree, Computer Science

International University - Vietnam National University 2019 - 2023
Bachelor's Degree, Data Science

- GPA: 3.4/4.0 (100% English curriculum)
- Awards: Academic Incentive Scholarship 2021-2022, 2022-2023

KEY COMPETENCIES

Data Science & Analysis: Pandas, NumPy, Scikit-learn, R, PySpark, Hypothesis Testing, A/B Testing, Matplotlib, Seaborn, PowerBI.

AI & Generative Models:

- Frameworks: TensorFlow, PyTorch, OpenCV, Deep Neural Networks (DNN).
- LLM & GenAI: LangChain, LangGraph, Azure Foundry, GroqCloud.
- Models: OpenAI GPT, Llama, Mistral, Gemini, Stable Diffusion, DALL-E.
- Audio/Voice: OpenAI Whisper, ElevenLab, Deepgram.

Cloud Computing & Infrastructure: AWS, Azure

Data Engineering & Databases:

- Databases: PostgreSQL, Neo4j (Graph DB), MongoDB, Azure Search , Amazon RDS/DynamoDB.
- Platforms: Azure Databricks (MDP), Akka.

DevOps, MLOps & CI/CD:

- Tools: Docker, GitHub Actions, AWS CloudBuild, Jenkins.
- MLOps: MLFlow, Amazon SageMaker.

Programming & Backend Development:

- Languages: Python, Java, C#, NodeJS.
- Web & API: Flask, RESTful API.
- Testing: Postman API, Swagger API.

Project Tools: Jira, Slack, GitHub, Microsoft Office.

Languages: English (Professional communication at work), Vietnamese

CERTIFICATIONS & LICENSES

Databricks

- Databricks Certified Generative AI Engineer Associate
- Databricks Certified Machine Learning Professional

Google

- Foundations: Data, Data, Everywhere
- Prepare Data for Exploration
- Ask Questions to Make Data-Driven Decisions Google
- Process Data from Dirty to Clean

IBM

- IBM Data Science
- Tools for Data Science
- Python for Data Science, AI & Development
- Data Science Methodology

Huawel

- Silver Medal Seeds for Future 2023 (Asia)

WORK EXPERIENCE

Manulife (Ho Chi Minh City, Vietnam) Hybrid
Senior Data Scientist (AI) May 2026 - Present

- Part of the Asia Regional AI Team.
- Working with Singapore, Hong Kong, China, Japan,... staff.

Business Intelligence & Analytics

- GenAI Impact Measurement (VEA Model): Built the VEA model leveraging Difference-in-Differences (DiD) to quantify GenAI value; authored monthly Vietnam market performance reports for Regional stakeholders.
- Regional Reporting: Managed end-to-end data reporting for the Vietnam market, delivering monthly strategic insights and performance metrics directly to the Regional Leadership Team.
- Strategic Market & Customer Insights: Processed and analyzed massive raw datasets to generate actionable intelligence for the Strategy Department. Key analyses included Lead Scoring/Analytics, Orphan Policyholder Identification (for re-assignment strategies), and Geographic Investment Analysis to pinpoint high-potential provinces requiring increased capital allocation.
- Enterprise Dashboard Management: Maintained and optimized 10+ operational and executive dashboards, enabling data-driven decision-making across key business units: Agency, Digital Leads, Growth Marketing, and New Business Underwriting (NBUW).

Agentic RAG & Knowledge Assistant Suite

- M-Smart (AI Insurance Assistant) in MPA Mobile Application: Designed an Agentic RAG architecture and built end-to-end data pipelines for an AI assistant tailored for insurance agencies. Automated core workflows including Product Q&A, Product Recommendations, Quotation generation, Customer Insights analysis, and Policy Lookup.
- VN Knowledge Bot in Saleforce: Developed an internal sales-support chatbot to streamline access to Standard Operating Procedures (SOPs), Manulife Product Worksheets (PWS), and real-time customer objection handling guidance.

Renesas Electronics (Ho Chi Minh City, Vietnam) Hybrid
Data Scientist Nov 2024 - May 2026

- Part of the Artificial Intelligence (AI) Department - IT Delivery & Service - Information System Division.
- Working with the staff from Vietnam, Japan, Malaysia, China, the USA, and Germany.
- Promoted from Engineer I to Engineer II in Oct 2025.
- Projects:

- RTrack AI | Requirement Engineering Creation & Verification Suite
+ AI Agents: Architected a Chat Agent and batch system for creating and validating Requirement Engineering in IC design, streamlining technical specification analysis.
+ Automated Auditing: Developed a rule-check batch system for UVM and SystemC codebase compliance, ensuring hardware verification standards.
+ AI review document agent batch processing for typographical errors
+ Unified Ingestion: Designed a Dynamic Intelligence Pipeline for seamless ingestion of both technical documentation and complex source code.

- RenDI (Renesas Document Intelligence)
+ Core RAG Library: Built an in-house library for multi-format document parsing, chunking, embedding, and indexing to power domain-specific LLM applications.
+ Dynamic Data Parsing: Developed a universal model to transform raw files and nearly all programming languages into structured Markdown, preserving folder hierarchies and logical relationships.

- Colossus | Big Data Keyword Miner
+ High-Scale Mining: Engineered a search engine capable of extracting keywords across hundreds of GBs of unstructured data.
+ System Design: Architected the CLI for a high-throughput big data uploader system, optimizing the developer workflow for massive datasets.

- Data Strategy & Analytics
+ Data Sync Pipeline: Built a robust pipeline synchronizing AI application usage data into a Modern Data Platform.
+ Databricks Governance: Managed Databricks dashboards to monitor and visualize performance metrics for AI and Data Intelligence services.

Wellora Click (Philadelphia, Pennsylvania, United States) Remote
Data Scientist (paid per share) May 2024 - Aug 2025

- Driving innovation across a high-growth nails book app and equipment service platform. Specializing in leveraging advanced Machine Learning (ML) and statistical modeling to solve complex, dual-sided business challenges.
- Focus on two core areas: App Personalization (building recommendation engines, optimizing booking/pricing strategies to boost user conversion and revenue) and Service Optimization (developing predictive maintenance models to minimize equipment downtime and optimizing technician logistics). Translating data into actionable strategy, ensuring data science delivers tangible business impact.
- Collaborating with AI Engineers to develop the in house RAG agentic system.

Flipjungle AI (Ho Chi Minh City, Vietnam) Onsite
AI Software Engineer - Team Lead May 2024 - Nov 2024

- Manage and integrate diverse LLMs (GPT, Gemini, Claude, LLAMA,etc.) with techniques like RAG and fine-tuning, develop logical reasoning for math practice tests, and build an evaluation platform using MLFlow.
- Prototype a model to assess children's development skills, maintain a GitHub Actions pipeline for efficient deployment, and conduct testing with Pytest.
- Oversee AWS and GCP infrastructure with a focus on cost-performance balance, and promote consistent coding practices through code reviews and documentation (Team size: 3 Engineers).

Flipjungle AI Onsite
AI Software Engineer Sep 2023 - May 2024

- Developed robust backend systems for FlipJungle App and Admin Panel, utilizing AWS Cloud, GCP, and RestfulAPI to ensure seamless functionality.
- Integrated cutting-edge AI technologies, such as LLM and Python, to enhance the platform's capabilities and provide a personalized learning experience.
- Optimized database performance and implemented intelligent algorithms to push the boundaries of educational technology at FlipJungle.
- Technique: Docker, AWS, Google Cloud, PostgreSQL, SQLAlchemy, Python, FastAPI, Flask, Postman API, Swagger API, Selenium, LLM, OpenAI Fine tuning...

International University - Vietnam National University Ho Chi Minh City Hybrid
Deep Learning Research Assistant Jan 2023 - Oct 2023

- Researching natural language processing, building Question Answering System for admissions consulting support.
- Technique: Python, Deep Learning, TensorFlow,...

Data Mining Teaching Assistant Jan 2023 - Jul 2023

- Re-teach students in Vietnamese before each exam.
- Prepare topics for students to review.
- Grade quizzes, assignments, midterms and finals.

Phu Hung Securities Corp (Ho Chi Minh City, Vietnam) Internship
Data Science Intern Jun 2023 - Sep 2023

- Building a model to predict future stock prices(Long Short Term Memory), researching and building Sentiment Analysis models for securities articles (NLP), and image processing on Invest Payment.
- Technique: Python, Data Analysis, Deep Learning, LSTM,...

DATA PLATFORM CERTIFICATION

166619056

databricks
Certified

Trung Ly

has successfully completed the requirements to
obtain the following Databricks Certification:

Databricks Certified Generative AI Engineer Associate

Date of Issue:
November 15, 2025

Date of Expiration:
November 15, 2027

Jody Soeiro de Faria
AVP. Curriculum & User Success

176513925

databricks
Certified

Trung Ly

has successfully completed the requirements to
obtain the following Databricks Certification:

Databricks Certified Machine Learning Professional

Date of Issue:
March 10, 2026

Date of Expiration:
March 10, 2028

Jody Soeiro de Faria
AVP. Curriculum & User Success
